

Skilled, Confident, and Safe!

In this seminar, CFII and DPE Doug Stewart, will speak about his observations of the mistakes and pitfalls made by instrument pilots and offer suggestions on ways to make flying in the IFR system simple and efficient. He will discuss: How to pick up a clearance at a non-towered airport without having to rush to meet the void time; Setting up avionics for most efficiency and effectiveness; What data fields provide the most important information; Holds made simple; The most important waypoint in the flight plan; and more... Drawing on his wealth of experience, he will offer numerous tips on how to manage the risks, and become a safe and confident pilot not only in the IFR world, but in the VFR environment as well. Seating is limited, so click on the link below and register TODAY!

Directions: South Hangar - East entrance.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
